Ir man of means could be induced to

come to the Warren Mining District and avestigate the opportunities there see here for the placing of capital, many fortunes would be saved that bave been, and are now being, squandered in a fruitless search for other fortunes in unknown and unexplored reions. The old adage that the "green pastures are just over there" is the ignis fatus that has lured many to des truction, and will lead many more in the same direction. Bisbee has one mining company-the Copper Queen-that has demonstrated its faith in the great value of the hills in this district by years of line to Tombstone at Lewis Springe and give you his address. centinuous labor. Hundreds of thousands of dollars have been expended by this company, but their reward has been millions in return for the thousands expended. They had, in the beginning of their work here, many discouraging features to meet and overcome, but with an unfaultering faith and an energy that would not be crushed, they surmounted them all, and today their properties in this district are numbered among the big producing copper mines of the world, and with the same enterprise in the future that has characterised the past. the Copper Queen mines at Bisbee, Cochise county, Arizona, in a very few years, will head the list of hig producing copper mines in North American While this company have large and val uable holdings in this district, there are many other properties here that, with development, would undoubtedly prove as valuable, which only awaits the magic touch of capital intelligently applied to yield abundantly of their great riches. The opportunities here for safe investment, with an almost certainty of quick and continuous returns are of the most encouraging. Then why seek in In Utah (according to a statement strange lands for opportunities? To do so hardships untold awaits the searcher after gold. In the north all the terrors of a frigid climate are to be encountered; to the south the almost unbearable heat of 6 cents per pound. Asuminum sheet of a tropical san is to be faced every day, is now made 10 per cent cheaper than where disease the most virulent and brase, and cheaper than any other fatal are sure to attack, while here all metals except iron, sinc and lead. The things conduce to the comfort and profit of the investor. It is not the aim or in the metals, prevous and useful; is one tent of Two One to attempt to-boom this camp-that is spaceseary, in due time it will boom itself-neither do we desire to exaggerate in the slightest particu | quency of state legislative sessions has greater, advantages to the man of means, the constitution so as to provide for but Company. I must return my sincere markable indications and possibilities or committing cepr da cons of any kind of mining, then any other copper dis- trolling idea is the desire to decrease the trouble you have been to in sinding

opinion; experienced miners, men who have been in this camp for years, and who have had extensive experience in A Complete Copy of the Charges other copper camps, hold that this mineral sone is underlaid with a yast body ofcopper ore, and that it is only a ques tion of depth as to when and where that body of ore will be tapped.

FOURTEEN CENT COPPER.

Copper continues to maintain itself a the eastern and foreign markets at the highest prices of the year. It strongly held at 13 cents with 14 cents espected. And the hopes of the expastant ones would seem to be well founded. In an article from the I ondon Mining Journal, it is stated: "In view of the improving prospects of industry there is an anxiety generally manifested to know the districts where copper is abundant, for it really seems as if the supply will, only with the greatest difficulty, keep pace with the future demand."

In responce to the anxity herein expressed it may be at once stated that there are no places in the known world where copper properties exist in such large quantities as throughout this outhwestern region, more especially in Arisons, and only to a lesser extent in Southern California. Acizona already stands third among the great copperproducing sections of the world, and is rapidly reaching the first place. To which may be added that no where in this world are to be found copper properties of equally high percentage, still swaiting development, as in Arizona. British capitalists seeking large and profitable copper investments should turn their attention this way .- Los An geles Mining Revew.

On another page of this issue we print in full the letters, data, etc., that have been presented to the board of supervisors as a protest against W. A. Harwood as county assessor, on the grounds that he is not a citizen of United States. We publish the papers without comment, simply to show our readers the position in which it places the board of supervisors. It was an understool fact between both parties that the assessor elected by the people should be appointed by the incoming board of supervisors, whether they be either dem gratic or republican. It has now been charged that the present board of supervisors are trying to go back on this understan iing and appoint another person other than Mr. Harwod. Such is not the case. The board of supervisors will ap sant Harwood county assessor, provided he proves himself to be a citizen of the United States, which the papers pur thined elsewher are inclined to p ove fotherwi e. THE ORB agrees with the board of supervisors as well as the citi sens of the county that, M'. Harwowl should be appointed to the office, as it was the will of the people, expressed at the polls last November, that it be so: at the same time if he cannot positively prove his rights as an American citizen, he is not qualified to fill the office.

Huachuca Water Co. of New York City. eccompanied by Tom Smith, the local look over the field with a view of put ting in a pipe line, tapping the present coming in through Tombstone canyon and over the di ide. The approximate length of the proposed line being about eighteen miles. With pure water, such as the Huachuca, in bisbee much sickness would disappear and we would have ample protection from fire, the water having over 300 feet fall.

have counted without their host: Oth. be well. With thanks to you, I am. er laws or treaties between the countries insure a continuation of an interchange of criminals who may cross the border.

In California gold ore of the value of 84 cents a ton has been worked for 78 cente aton, leaving a profit of 6 cents uncontradicted since its appearance herein) silver is produced at a cost of 2316 cents per ounce. In Michigan and Montana copper is produced at a cost decrease in the cost of production of of the marvels of modern metallurgy.

Tax movement to decrease the frelar, but simply to state a patent fact progressed to a point where, at present, May to hand. I am pleased to hear that, for copper mining, the Warren ouly six states require annual sessions. from you, and pleased to say found W. Mining District. THE HARWOOD PAPERS.

Aguinst His Citizenship.

The following letters and statement are a true copy of the letters as pre sented before the board of supervisors as a protest against his being qualified to be county assessor of Cochise County. Read and judge for yourself: LONDON, UNT., CAMADA, Apl. 17th, 1895.

CHAS. S. CLARE, ESQ. : Cou'd you give me any information regarding W. A. Harwood, who left that place, the 28 h of September, 188 , for Johannsburg, South Africa. I have written to the above address, but did not find him. His brother George wrote to us to know if we knew his adthe copper market and of the copper dress. If you could give me any other information of his whereaboute, I would be thanktul.

And oblige, yours truly, HENRY SMITH HARWOOD, (The following endorsed on the back): P. S .- My address:

> HENRY SMITH HORWOOD. l'ecumseh House, London, Ont., Canada.

(Letter.) LONDON, Apl 30, 1895. C. S. CLARK, Esq.:

Dear Sir :- Yours of the 29th inst. duly to hand, which accept my sincere thanks. My father says his brother, William Arthur Harwood, will iba 54 years old next October, born in Gesington, Parish of Slimbridge, Gloucestershire, England, Cather's name, Arthur; mother's, Deremish. Height not known. I would judge from his brother's he would be 5 hot 4 or 5, as you ment oned.

If you can secure his address for me to communicate with him I will try and repay you.

liusting I am not putting you to any inconvenience, will close with best wishes and regards.

> believe me, yours respectfully, HENRY SMITH HARWOOD. Tecumen House. London, Ont., Canada.

> TOMBSTONE, ARIZ., May 31, 1895.

A. L GROW, Esq.: Dear Sa:-Please and inclosed two leners attiressed to me in relation to the present whereabouts of William Arthur Harwood. I'nese lette s express much concern and are of importance, I presume, to both parties. Will you kindly make such inquiries con ceining Mr. Harwood and inform his distressed relatives of such matters as your extensive acquaintance on the Pa cific coast enables you to do and oblige, Yours truly,

CHAS. S. CLARK.

TOMBSTONE. ARIZ., June 7.h, 1895. H. S. HARWOOD, ESQ. :

Sir :- Mr. C. S. Clark, to whom you have been writing, and asking for one W. A. Hacwoot, has handed me your letters with a request that I answer them, as he is no in a commition to do BU Mi jierent.

As there are other Harwoods in this Mr. James Murphy, representing the country, and to find our positively as to which is the right one I will ask you to state whether the W. A. Harwood, that Non-Assessable and Carrying no Peragent at Tombstone, arrived yesterday you are asking about, ever lived in New on the afternoon train. Mr. Murphy Castle, Del., U. S. A., or did his fathe comes here in behalf of his company to ever live there? Also, was said Harwood ever a sailor or cabin boy. If such proves to be the case, I can probably

Lam very truly, A. L. GROW.

LONDON, June 11t ., 1:95.

A. L. GROW, Esq.:

Bear Sir:- Yours duly to heni h 8th met. I am afraid I am giv.n. you gentiemen a lot of trouble. W. A. Harwood's father never was in the U. s. I It has been thought by many that couldno give you any other ad ress ther the fugitives from justice escaping he has ever lived only the same as yours into Mexico or the United States from It is possible he might have oeen a saione of these republics to the other for or cabin boy, io. he hat no ther would be safe when the extradition way of coming on , excepting working. treaty expired which it did Friday. We did not hear from him for 15 y are This, however is not the case and the after he left. Trusting the will parties who may have counted upon find him, will slose with kind rethis state of affairs will find that they gards to C. S. Clark, hoping he will soon

Yours Respectivity, H. S. HARWOOD, Tecumsen House. London, Ont., Canada.

TOMESTONE, ARIZ., June 17th, 1895.

H. S. HARWOOD, Esq., London, Ont.: Sir:- Your letter of the 11th at hend. I am satisfied that the William Arthur Harwood tost you are ceking is here. A letter will find him if rent in care of G. H. Fitts of this place, who is a parther of Harwood's in some mining propare to visit time place, you can call on find him.

I am, Very Truly, A. L. GROW.

LONDON, July 1st, 1895.

A. L. GROW, Esq. : Dear Sir :- Your favor of the 24th of that way, I will be pleased to meet you.

Thanking you, will close. I am, Yours Respectfully. H. S. HARWOOD.

SAM. A. LATHIOP. U. S. Consul for Bristol.

The South Bisbee

Improvemen Co.

sonal Liability to the Holder

The group of mines recently purchased by the "South Baibee Copper Min ing and Townsite Improvement Comp any" are situate on the southwest side of this copper basin, and extend from the top of the mountains on the west to the center of the basin on the east. Few people have any conception of the ore bodies or the unlimited amount of mineral that lies in this basin. The Copper Queen Company has been operating here for eighteen years and are down only 500 feet, simply because they found sufficient ore between there and the surface, tokeep them in constant operation. It is said by parties who have the opportunity to know, that they now have sufficient ore in sight to maintain their present output for fifteen years without having to sink another foot; and what is true of their property must

when developed. The stock books of the above company are now open for subscription and a limited number of shares are offered at TWENTY CENTS per share. No applications for less than 100 shares. No bearings available. Thence N. 81 will be accepted. Applications for deg 37 min. W. 1500 ft. to cor. No. 1. stock or copy of the prospectus to be the place of beginning. Variation at made to

PETER JOHNSON. Fiscal Agent, Bisbee, Arisons. Every dollar of the proceeds from the sale of shares of stock and from the sale of the company's town lots and blocks, which we estimate will be a large sum, will be invested in sinking shafts, development work, the erection of hoisting works and modern smelters, and all necessary improvements, to make this enterprise successful in every way. We can deliver our erry some distance from here, or it you coke supplies directly from the railread cars to the smelters; and can Mr. Fitts, and he will tell you where to also deliver our bullion directly to the cars. We have no salaried officersveloping the property of this company. Tucson, in the County of Pima, during Office And Works, Tombstone Canyon, The books of the company will be open for inspection at all times, and at the annual meeting of the company, full and exhaustive reports will be submitted to the stockholders, for their approval.

This corporation is composed of practical business men. Upon request of interested parties, we will, with pleasure, submit evidence to show that our claims are modest, in view of the re. at his office. All persons breaking in,

of this property.
PETER JOHNSON. geles, California.

NOTICE OF APPLICATION FOR NOTICE OF APPLICATION FOR

[M. A. No. 677. -Survey No. 1279.] United States Land Office. Tucson, Ariz., October 24, 1898.

Notice is hereby given that in pursu ance of the United States Mining Laws postoffice address is Tombstone, Cochise County, Arizona, has made application for patent for 1500 ft. "Samson' load, bearing gold, silver and copper," covering 795.8 ft. of the "Samson" lode, ip a direction S. 31 deg. 25 min. E. from the discovery cut and 704.2 ft. ground 600 ft. in width, situated in the Huachuca mountains, Cochise County Mining District, Arizona, as described by the official plat herewith posted, and by the field notes on file in the oflows, viz: Beginning at cor. No. 1. identical with
